

EZ-45 Pallet Loading Station

Product Description:

EZ Loaders are true ergonomic tools in every sense of the word. They are designed to eliminate worker bending by automatically raising and lowering pallets during loading or unloading without the use of mechanical springs. EZ Loaders also allow easy pallet rotation so the worker does not have to reach or strain. As the load weight changes, the EZ Loader automatically adjusts, keeping the top of the load at a convenient working height. The patented pneumatic operating system found only in the EZ Loader has proven to be the top choice of industry professionals worldwide.

Unit Features:

- Capacity (lbs.): 4,500
- Dimensions L x W x H (in.): 51 x 43 x 8 3/4
- Height (in.): 8 3/4 (lowered height), Length (ft.): 51, Overall Diameter (in.): 43 1/2
- Self-leveling design automatically keeps the top of the load at a convenient working height to help eliminate bending and improve productivity
- 43.5in. dia. platform turntable has a 43in. dia. rotation ring with secured center pivot bearing
- Captive air operation eliminates cumbersome mechanical springs and gives more controlled (dampened) movement to the platform
- Firestone Airstroke Actuator raises and lowers the pallet
- Powder coated with a high-quality polyester for a lasting, durable finish
